Sir:

Pursuant to 37 CFR 1.97 and 1.98, the references listed on the enclosed Form PTO/SB/08 are submitted for consideration by the Examiner in the examination of the above-identified patent application.

The full consideration of the references in their entirety by the Examiner is respectfully requested and encouraged. Also, it is respectfully requested that the references be entered into the record of the present application and that the Examiner place his or her initials in the appropriate area on the enclosed Form PTO/SB/08, thereby indicating the Examiner's consideration of each of the references.

The submission of the references listed on the Form PTO/SB/08 is for the purpose of providing a complete record and is not a concession that the references listed thereon are prior art to the invention claimed in the patent application. The right is expressly reserved to establish an invention date earlier than the above-identified filing date in order to remove any reference submitted herewith as prior art should it be deemed appropriate to do so.

Further, the submission of the references is not to be taken as a concession that any reference represents art that is relevant or analogous to the claimed invention. Accordingly, the right to argue that any reference is not properly within the scope of prior art relevant to an examination of the claims in the above-identified application is also expressly reserved.

#### **Copies of the References – Comments for the Examiner's Consideration**

- (X) A copy of the non-English reference listed on the enclosed Form SB/08 is enclosed herewith.

The non-English reference was cited in a document mail-dated July 11, 2005 against a counter-part Japanese Patent Application, and the citation was only received later, but in any event such dates are less than three months from today's date of October 6, 2005. Applicants' U.S. legal representatives became aware of this information on October 6, 2005.

On present information and belief, the relevance of the non-English language reference is that it discloses in Table 3.12 on page 389 that a plastic film used for a packaging, which is made of low density polyethylene, has the moisture permeability of 40 to 100 g/m<sup>2</sup>/24 hr/0.01mm, which is measured under JIS Z 0208 in performance thereof), but it does not disclose nor suggest the features of the allowed claims.

Upon information and belief, five (5) other references were cited on July 11, 2005 in connection with the Japanese patent application as follows: JP-H05-39379A; JP-H07-96092A; JP-H08-325141A; JP-H09-122221A; and JP-H10-167284. Upon information and belief, all were previously cited herein. See Information Disclosure Statement of May 27, 2005 as produced in the PTO Pair Electronic file history. This is confirmable by inspecting PTO Pair Electronic file history, although it is noted that JP-H07-9609 is included, but was not separately indexed in PTO PAIR. It appears that the Examiner herein has already previously acknowledged his careful, independent review of references as seen from the Information Disclosure Statement(s) or equivalent thereto submitted herein on May 27, 2005 and, for instance, April 19, 2002.

The Examiner will note certain of the above-mentioned JP documents are also disclosed in the present specification, such as page 1 bridging to page 2 as an example.

Upon information and belief, a third party observation was also submitted against a counterpart to the present application. A copy is attached. A translation is not presently available to Applicants' U.S. legal representative. This information came to the attention of Applicants' U.S. legal representative on October 6, 2005.

If the Examiner has any questions, he is invited to contact Applicants' U.S. legal representative.

- ( ) A copy of the Supplementary European Search Report is enclosed herewith.
- ( ) The references listed on the enclosed Form PTO/SB/08 were previously identified in the parent application(s) of the present application, and copies of the references were furnished at that time. Accordingly, additional copies of the references are not submitted herewith, so as not to burden the file with duplicate copies of references. The Examiner is respectfully requested to carefully review the references in accordance with the requirements set out in the Manual of Patent Examining Procedure. In accordance with 37 CFR 1.98(d), the details of the parent application(s) relied upon for an earlier filing date under 35 USC 120 in which copies of the references were previously furnished are set out below:
